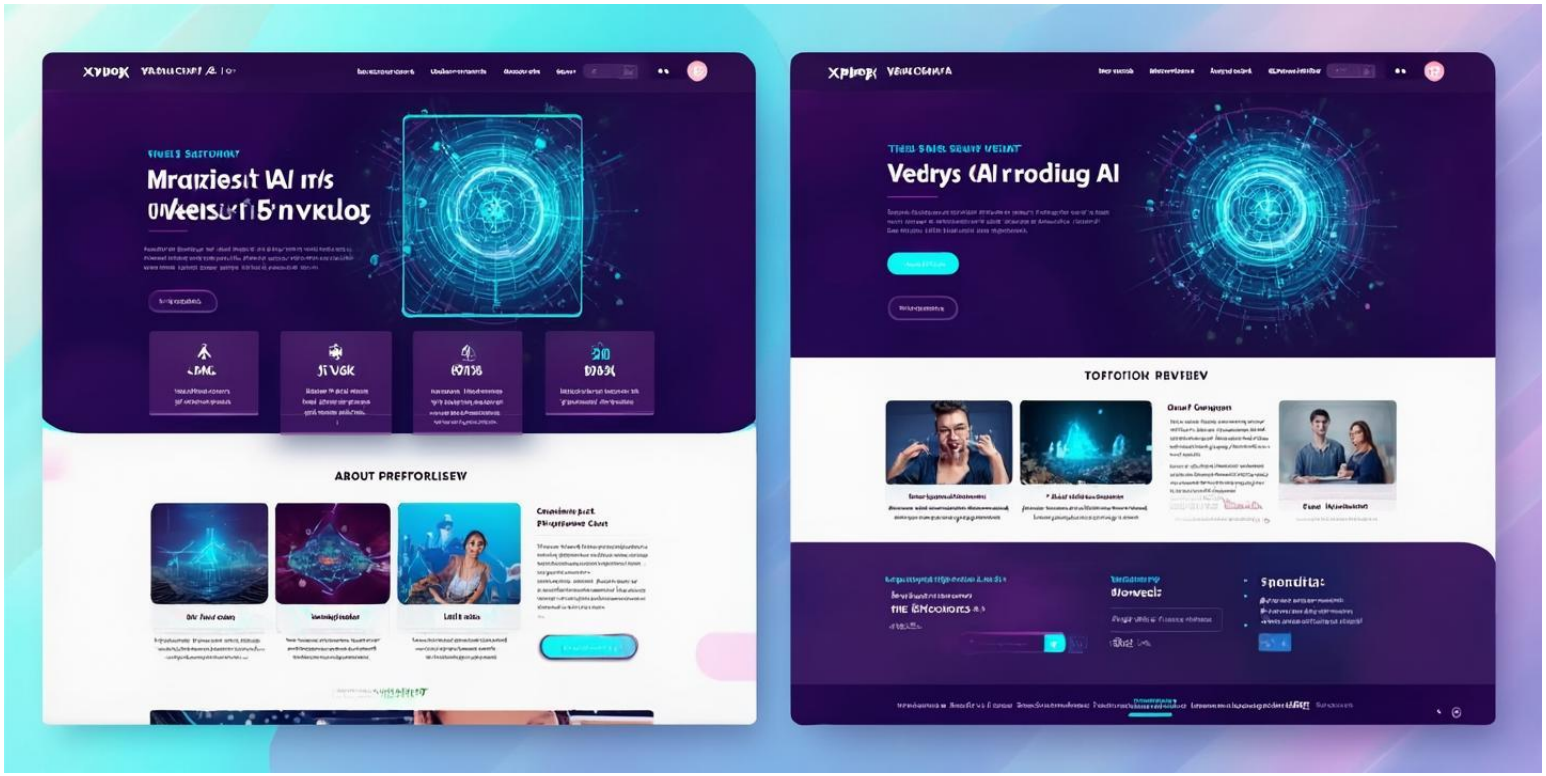
# Xyphora AI

## Website Design Mockups

Figma-Style Design Presentation



Version 1.0 | March 2025

# 1. Full Homepage Design - Desktop View

This is the complete homepage layout for Xyphora AI. The design features a dark theme with purple and cyan accent colors, creating a modern and futuristic AI company aesthetic. The layout is optimized for desktop viewing with all sections visible in a single scroll.

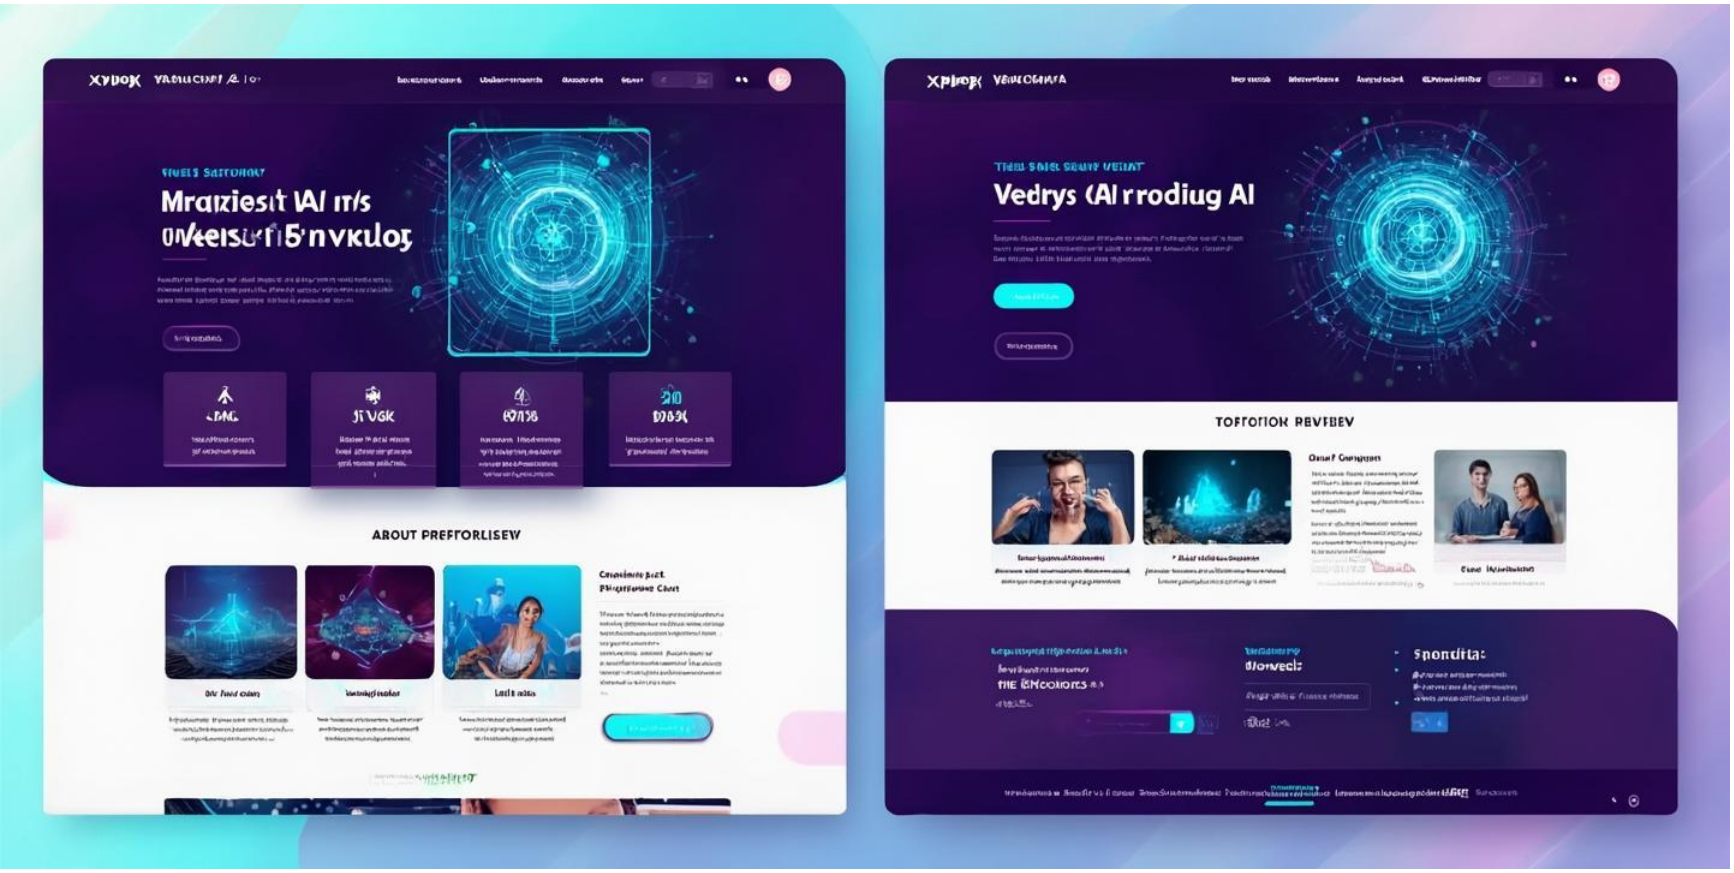


Figure 1.1: Full Homepage Desktop Mockup

# 2. Hero Section Design

The hero section is the first thing visitors see. It features an animated neural network background with glowing particles, creating an immersive tech experience. The headline 'Intelligence Evolved' is prominently displayed with clear CTAs for user engagement.

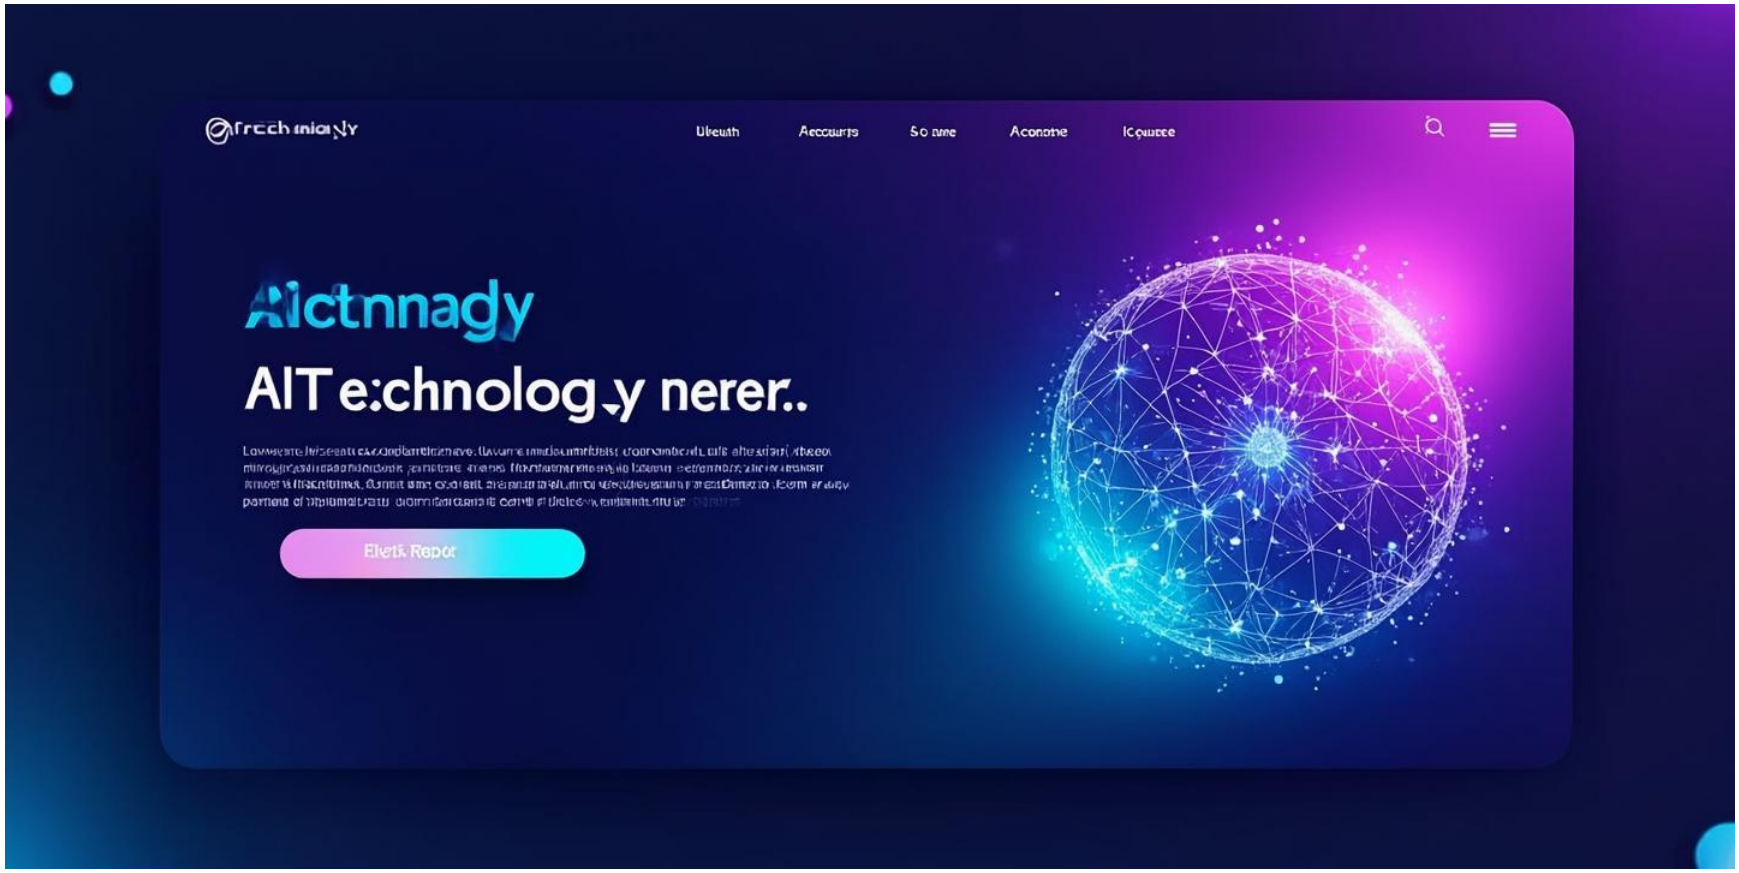

Figure 2.1: Hero Section with Neural Network Background

# 3. Services Section Design

The services section uses a clean card-based grid layout to showcase the four main service offerings: AI Web Development, AI Application Development, AI Integration Services, and Custom AI Solutions. Each card features an icon area, title, and description with hover effects.

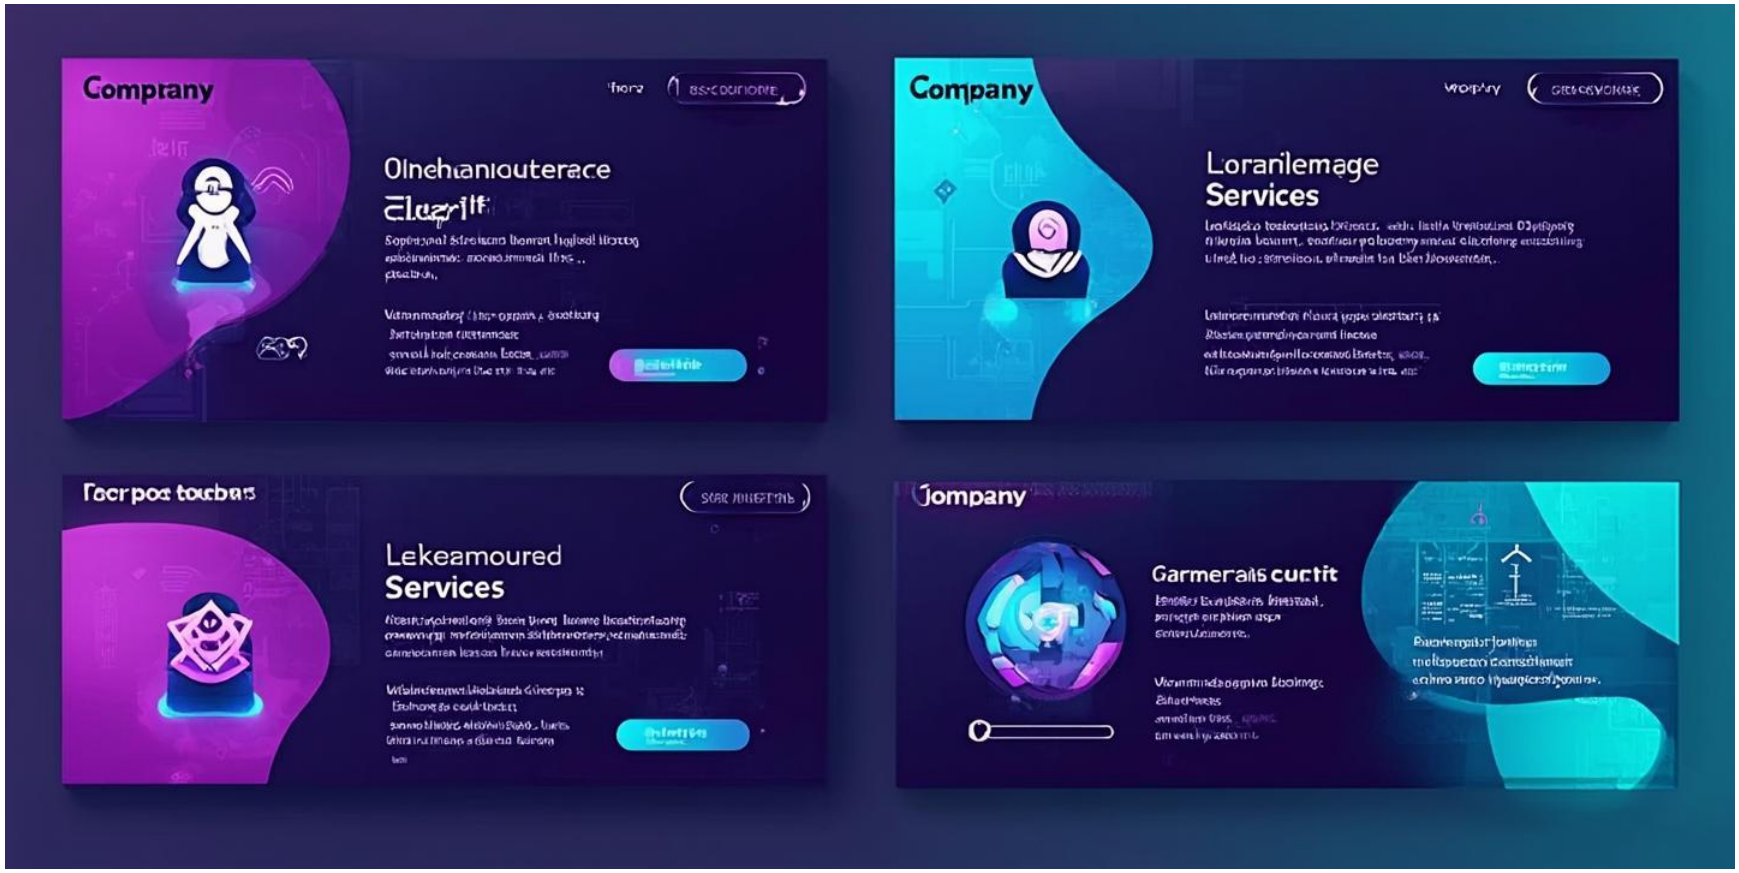

Figure 3.1: Services Grid Layout with 4 Service Cards

# 4. Navigation Header & Footer Design

The header features a sticky navigation with the Xyphora AI logo on the left, navigation links centered, and a prominent CTA button on the right. The footer mirrors this structure with multiple columns for links, company information, and social media icons.

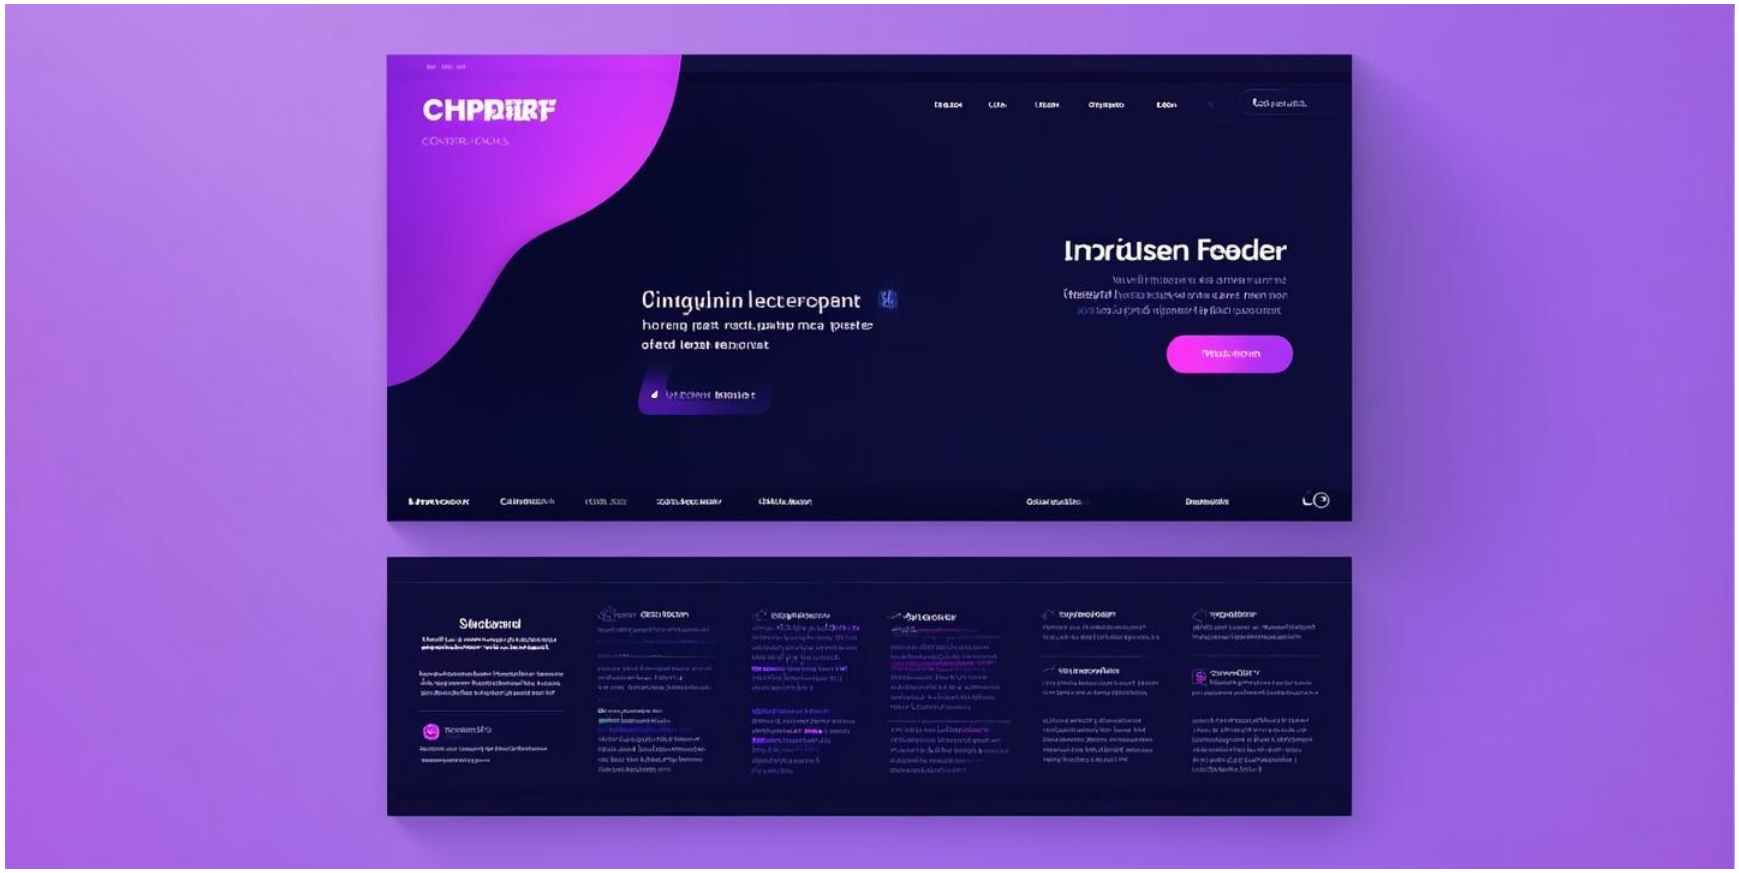

Figure 4.1: Navigation Header and Footer Components

# 5. Mobile Responsive Design

The mobile design maintains the same visual language while optimizing for touch interactions and smaller screens. A hamburger menu replaces the full navigation, and sections stack vertically for optimal mobile viewing experience.
